

Library News

Students can now check the Vanderbilt Library collection online to find resources for classes. The library's new automation system allows students to check for materials on *any* computer with internet access.

The URL <http://destiny.arch-no.org> will take you to the diocesan home page. Click on "Diocese of Houma-Thibodaux" and then click on "Vanderbilt Catholic High School". Students may search the catalog as a guest or they may create an account. Creating an account would allow students to put materials on hold, create lists, and view checkouts of library books and textbooks. Passwords will be provided by the library staff for students who would like to create an account. The Vanderbilt Library online catalog may be searched by using the "Library Search" or "Destiny Quest" tabs. Also available is a new feature called WebPath Express. Typing in a subject term provides links to relevant internet websites.

Recommended Online Resources Available for Students

Gale Databases provide online resources including **Student Resource Center Gold, Biography Resource Center, Health & Wellness Resource Center, History Resource Center, Literature Resource Center, Science Resource Center, InfoTrac Newsstand**, and more. These databases are highly recommended for students doing research. The content of these sites are academically sound and safe for students' use.
